Dear Streetwise Customer,

What I am about to share with you must stay with you and go no further because the information is so powerful we have to ensure no-one else finds out about this amazing winning system. The Copy-Cats must not get hold of this! It is just for you and me and my other Premium Customers and Only 250 copies have been made available for distribution and one of them has your name on it!

OK, so would you like to know a little more about the system which has produced an incredible **223 winning bets** from 243 selections and which is going to make you a fantastic amount of money – like **SIXTY GRAND** or more within the next two years?

The Invisible Signal - Which You Will Be Able To See!

The first thing you need to know is that the system is really simple to follow and easy to use. There is nothing complicated here - just a really sweet little system. It works so well because it taps into a little-known statistical anomaly which is a virtual signpost to where the winners are! Once you know this secret there'll be no stopping you.

Yet, if you *don't* know the secret you could search for a thousand years and you would never discover it because it is an *invisible* signal – only those who know what to look for can see it!

No Previous Knowledge Required - The Easiest Way To Make Sixty Grand You'll Ever Find

If I gave this manual to someone with absolutely NO KNOWLEDGE of horse racing all they

would need to do is read the manual, follow the simple instructions and watch the money flow into their bank account every day. If they can start with a £1,000 betting bank they will have **£30,000** within 24 months. A bigger starting bank of £2,000 will see them with a **SIXTY GRAND** bank balance within 24 months.

You can start with smaller amounts of course and build your bank up to £1,000 or £2,000 very quickly, so there is no reason for anyone to feel 'excluded' or that they can't do this for any reason. I know you can do this – that's why I have written to you.

Pre-Tested For Proven Success

As a Premium customer of mine I know you will know a good thing when you see it and you already know that this system has been **pre-tested** by 25 of my customers and every single one of them has reported MASSIVE profits just from their three-month test.

And those three months were no fluke either because over the last twelve months from 243 selections the system had a staggering **223 winning bets** with a fantastic 91% winning strike rate. It works! In fact to just say 'it works' is an understatement because in truth **I have never seen anything like it**. I think it is absolutely PHENOMINAL – a true winning machine which you'll be able to use every day if you wish.

OK it's time to share a bit more about the 'nuts and bolts' of the system with you so you know what to expect because I want you to be completely happy about what this is and

. . . how it works.

Outstanding Probability of Success

First of all you should know that it is a simple Backing system and there is no Laying involved. Also the bets are straight Win only bets and because the odds range is from 8/11 to 3/1 there are no Each-Way or Place bets. We are just backing individual horses to win and these will always be horses which have been highlighted by the invisible signal – **for your eyes only!**

The signal gives us an outstanding probability of success – a 91% probability of success in fact – and you have already seen how this translates into phenomenal monetary success with those **223 winning bets from the last 243 races** – truly incredible results.

No Internet Required - Excellent Guidance Given

You don't have to use the Internet if you don't want to, or if you haven't got a computer. Just a good old fashioned newspaper will do, in which case we recommend the Racing Post at £2.10 currently. However the on-line version of the Racing Post is **free**. At www.racingpost.com Using other news papers for the system is not advised because we all need to see the same 'signal' and different newspapers may not show this. So if you can't access the internet or buy the recommended newspaper then sorry this is not for you, (I have had people tell me they couldn't buy a newspaper!)

Also, this is not a Stop At A Winner system or any form of 'chasing losses'. There is a monetary plan though and this will give you **excellent guidance** on how much to stake on each race and what to do as your winnings pile up. And pile up they will!

It Takes Just A Couple of Minutes Each Day

There are a number of things I really like about this system. It really has ticked all the boxes for me and I can only imagine you too will be absolutely delighted with this little beauty when you receive your own copy and see how all these daily winners are found so easily and with such confident assurance of success.

For example - **it takes just a couple of minutes** to find the bets each day and you can do this anytime you prefer – from very early each morning right up to race off time if you like, so the normal excuses of “*its too early for me*” or “*its too late for me*” simply don’t apply. In fact I’d be hard pushed to find a valid ‘excuse’ for not doing this, although a few people may cheapskate themselves out of it! But that’s about the only reason

Real And Solid Financial Success

. . . a few people will deny themselves this wonderful opportunity for achieving **real and solid financial success** for a relatively small financial outlay in a very reasonable time-frame. God knows why, that’s just the way it is. But I know I will still be able to share this with enough of you to make this worthwhile for both of us and that’s why I am putting this opportunity before you today. OK, let me summarise the systems benefits and features with the following list for you as an ‘at a glance’ guide:

- **Simple to use, nothing ‘complicated’**
- No previous knowledge or expertise required
- **No internet necessary. A recommended newspaper *is* necessary if no internet**
- No huge monetary risks – we bet in sensible and affordable amounts in accordance with the monetary plan.
- **It’s a simple Backing System, no Laying involved**
- Straight Win bets, not Each-Way or Place bets
- **Number of bets between zero and three per day usually**
- Not Stop At A Winner or any form of chasing losses
- **Start with any amount of money, the more you start with the more you make**
- Takes just a couple of minutes to see the signal and you can do this at any time
- **It is a ‘set and forget’ system. One phone call or bet placement = job done. So no screen watching to worry about.**
- You can use the system 7 days a week if you wish
- **Works on the Flat and Jumps and All-Weather tracks with uncanny accuracy**
- The manual comes with very clear and precise instructions and lots of illustrations for your complete guidance
- **Has won 223 out of last 243 bets - Strike rate is 91% - Profits are HUGE**
- The system has been Pre-Tested and is Proven to work with fantastic results

When I consider the alternatives it makes me shudder, for example

Give Me FREEDOM Every Time!

I calculate you would have to earn a wage of **c.£100,000 before Income Tax and National Insurance** to take home the £60,000 this system will give you over the same time frame. **Plus** you’d have to work for the man for at least 35 hours a week to get that money. **Plus** all the travelling time and stress and associated petrol or train fares expense. And then you’ve got all the office politics and ‘Yes Sir, No Sir’ and 45 minutes or one hour for lunch with two tea-breaks *and you’ve got to be there 9 to 5*. Don’t get me started! Bugger all that, give me **FREEDOM**

every time and a wonderful little system which will provide all that money ***in less than five minutes a day*** instead thank you very much!

I *think* we are of the same mind, which is the reason why I bring this superb information to your attention. I mean I don't share this stuff with 'Joe Bloggs' I only share it with people who will appreciate it and value it and who will use it! Just like me.

So, if you still appreciate **great information that really works** which comes with the ability to set you FREE and which will provide you with an enormous tax-free, work-free, ever-growing cash resource then my friend we are on the same wavelength and still share the same values and ideals and I am honoured to count you among my most valued and like-minded friends.

We should treasure the relationships which put us in touch with the people who share our values and who want to enjoy a really nice life without all the stress that people who don't have these values have to suffer. That is why I share this knowledge with you.

“With Our Thoughts We Make Our World”

– Buddha c.563-483 BC

You and I are optimists and our thoughts attract the opportunities which we seek. Whether you believe it or not, that's the way the world works! So in my humble way I am honoured to be a part of the Grand Plan. *‘With our thoughts we make our world’*. Buddha said that a very long time ago. This is ancient wisdom which is as true today as it ever was.

Positive thinking will attract opportunities to you such as the one which has come to you today. You must realize that it is *meant* for you. The next step is to cast negative thoughts aside, take a positive view and take a 'chance' to own this very special information for yourself and then use it to your own advantage! You will never regret it and I know you will prosper enormously as a result of your positive thinking.
